They Recommend That Minister Bowen Receive Authorization to Arrange a Settlement With the Powers.

The leading citizens of Caracas have addressed a joint note to President Castro, asking him to give full powers to U. S. Minister Bowen to effect a termination of the present difficulty. This note was transmitted to President Castro at 1 o'clock this afternoon. It is signed by all the leading merchants, bankers and agriculturists of Caracas. It reflects truly the consensus of current opinion among the business element of this city. The men who signed the note will meet again to discuss ways and means of obtaining money with which Venezuela can meet her obligations, as well as the guarantees which it will be possible to offer to her creditors. The note is as follows:

"CARACAS, Dec. 17, 1902. "To the President of the United States of Venezuela. Sir: The undersigned having met, with the purpose of offering their aid to the government in the present conflicting situation, which has been created by the aggressive attitude of Germany and Great Britain, and upon your request to give our opinions in writing, we address you in the following terms:

"In view of the acts of violence already committed and of the absolute impotence of Venezuela to meet force with force, in response to the allied action of Germany and Great Britain; in view of the fact that Venezuela has exhausted all the means required by civilization and diplomacy to put an end to the present situation, and the government and the people of Venezuela having complied honorably and worthily to the demands of national honor, we consider, with all due respect, that the moment to yield to force has

Whether the minister will be permitted to perform the larger function of exercising full powers toward effecting a termination of the difficulty is not stated. Indeed, it would be questionable whether such an arbitrator as the American Minister would be acceptable to the allies, in view of the natural proclivities which he might have in favor of American countries.

So far as could be ascertained here tonight, no reply has come to the State Department in answer to the requests of President Castro that the pending claims be submitted to arbitration. Whether the minister will be pern

The Speaker laid before the House a letter from Gov. Smith of Maryland, notifying the House of the presentation by the State of Maryland of the statues of Charles Carroll, one of the statues of the Declaration of Independence, and John Hansen, President of the Continental Congress. These statues are now in Statuary Hall. A resolution was adopted, setting Saturday, January 13, after 3 o'clock p.m. for the exercises in connection with the acceptance of these statues. The House then resumed the consideration of the Legislative, Executive and Judical Appropriation Bill.

Mr. Bartlett of Georgia offered a mendment appropriating \$250,000 to enable the Attorney-General to proceed with prosecutions, but to this Mr. Hepburn said the whole country was agitated over this subject. Mr. Bartlett wanted Mr. Hepburn to incorporate in his amendment provision directing the Attorney-General to proceed with prosecutions, but to this Mr. Hepburn objected, because it contained a reflection on the Attorney-General.

Mr. Bartlett said the Attorney-General should be criticised, because he had not enforced the anti-trust laws. He said there had been no representative of the people's interests in the White House, Cabinet or in the bench in the fight against the trusts.

Mr. Grosvenor of Ohlo said the Sherman anti-trust law was a Republican measure, while a Democratic administration had cast doubt upon its constitutionality. Mr. Hepburn's amendment was adopted without division.

MAY'S EXPLANATION.

The company, through its general manager, W. A. May, was permitted to make a statement. He said:

"The Pennsylvania Coal Company has two systems, one where four men work in a place, and known as a four-handed place, and another in which there are only two men, and known as a two-man place. There may be places where only one man works, and there may be places where there are four men working, but that fact is known to the company itself. The company does not keep a record of the individuals in a contract, or the number. It only keeps the name of the man in whose name the place is run, it can be possible that there are more

was unfair to have given them to him or to the commission without indicating how many workmen's earnings were represented in them.

This ended the matter. The commission examined a deputy factory inspector regarding child labor, and suggested that the Legislature of Pennsylvania be petitioned to improve the factory inspection laws.

WOLVERTON'S STATEMENT. Wolverton's STATEMENT.

The miners here rested their case, and Wolverton formally opened the operators' side of the controversy by reading a statement which represented the view of all the large coal companies. He said in part:

"All the anthractic coal in the United States is found in a few counties of Pennsylvania. The conditions of mining are so different in different fields, and even in the same mine, that it is not practicable to adopt any uniform method of mining for the whole region. The respondents will show that

mines were filled with water, and had it not been for the operators' strenuous efforts to keep pumps going. few miners would have been able to get work after a resumption. Had the union succeeded in stopping the pumps little or no coal could have been furnished the public in the winter of 1902-03.

"The respondents concede the right of labor to organize for its protection, and to benefit the conditions of the laborer, but they feel that to be subject to the control of any bituminous coal organization, composed of boys as well as men, would end in the ruin of the anthractic coal business in Penn-

stand, and they swore that the earnings mentioned were divided among from four to six men. This testimony surprised the commissioners, and Judge Gray asked if the figures on the memorandum were taken from the wage statement already filed by the company with the commission, and Warren replied in the affirmative.

Chairman Gray then requested counsel for the company to indicate in its statement, handed up, whether the figures given are for one, two or more men.

"We do not say it shakes our faith in the statement," he continued. "Unless you can show, however, that there are none of these cases, such as are suggested by this testimony, it will very materially shake our faith in it.

MAY'S EXPLANATION.

The company, through its general manager, W. A. May, was permitted to make a statement. He said:

"The Pennsylvania Coal Company has two systems, one where four men work in a place, and known as a fourhanded place, and another in which there are only, two men, and known as a two-man place. wish to work in or about the mines
but who do not belong to the union."

OUTRAGES BY STRIKERS.

It was arranged that the attorneys representing the non-union men should first class their witnesses, and new witnesses were produced who testified that strikers had killed one man and had more or less seriously injured two other men who worked during the sus-pension. The first witness was Mrs. James Wenston, the wife of the mur-

pension. The first withess was all James Wenston, the wife of the murdered man, and the second was her son-in-law.

Darrow saked the son-in-law who was paying for the lawyers who are representing the non-union men, and then ensued the liveliest tilt; that has occurred in the sessions of the commission. Counsel for the witness objected. The colloquy was carried on for some time, and finally Chairman Gray consulted his colleagues, and as a result quietly said that the commission crossing the monumental was a result quietly said that the commissioners thought it immaterial who was back of the non-union men.

IBY DIRECT WIRE TO THE TIMES. NEW YORK, Dec. 17.—[Exclusive Dispatch.] President Olyphant of the Delaware and Hudson Railroad could

see no remedy today for extortionate prices for coal now being asked by the independent operators. "The railway companies carrying their coal to market," said he bound by contract to transport so many tons to tide-water per week, and although they could fill all their care

with their own coal they would, by so doing, lay themselves open to action at law for breach of contract. "They cannot say to the independent operators: 'We shall take your coal after we have taken away all our owr coal from the mines,' for the reason that they have contracted to take so much independent coal irrespective of what they themselves have to transport Men who own the independent mines WILBUR (Wash.) Olyphant was asked if one way to force the price of independent coal down would not be to stop buying it. r"Of course it would." he replied, "but who is going to stop? The public wants the coal, and does not care what price it is made to pay for it. If retailers stopped buying \$11 coal there would be a howl set up in New York. It would make absolutely no difference that the uniform price would be \$7.50 a ton; the people want the coal, even if it is going to cost them \$2 0a ton. The dealcost one cost them 32 on ton. The deal-ers do not make as much profit on the coal they buy at \$11 as they make on railroad coal, for which they pay \$5, but they have to buy the \$11 coal. Their customers make them do it."

IBY THE ASSOCIATED PRESS-A.M.1 BERLIN, Dec. 17.—[By Atlantic Ca-ble.] The Foreign Office here denies

The Foreign Office officials allege that a systematic effort is apparently being made to represent Germany as the propelling power in the coercion of Venezuela and as being responsible for all the harsh measures. For instance, they say the bombardment of the forts at Puerto Cabello is ascribed to German initiative, whereas the officials say withour reservation that the bombardment was at the British commander's suggestion, the Topaz being a British ship. The German of the commander's described to the commander's suggestion, the strong property of the commander of the commander

considering President Castro's arbitration proposition, but the deliberations have not yet reached the stage where the results can be published. The Berlin newspapers today print from Kiel a statement that the German cruisers, Ariadne, Amazon and Niobe are again being equipped for departure to Venezuela, but the correspondent of the Associated Press is informed officially that no such orders have been given, and that it will depend later upon the demands of the blockade whether additional vessels will be sent.

PROPOSAL INADEQUATE.

PREMIER MAKES STATEMENT IN

Add to the Arbitration Proposition.

IBY THE ASSOCIATED PRESS-A.M.1 LONDON, Dec. 17.—(By Atlantic Ca-ble.) In the course of a long statement in the House of Commons today. Pre-mier Balfour said there was no such thing as a "pacific blockade." A state thing as a "pacine blockade. A state of war actually existed with Venezuela, and an intimation of the blockade would shortly be given to the powers.

Mr. Balfour added that the blockade would be carried out with as little inonvenience to neutrals as possible. Nothing definite has occurred with reference to the arbitration proposal since his previous announcement. The Premier also said the operations were reluctantly undertaken, not to collect debts, but, after a long and patient delay, to recover compensation for assaults on British subjects and the seizure of British vessels. He believed that the Germans also had claims besides the fluoristic proposed by the fluoristic propose

which we deeply regret, should be as little inconvenient to neutrals as they can possibly be made. No difference will be made between the vessels of the various neutral powers. I think it guite likely that the United States will think that there cannot be such a think that there cannot be such a thing as a 'pacific blockade,' and I personally take the same view. Evidently a blockade involves a state of war."

The House expressed its appropriation.

The Education Bill having passed all its stages yesterday, Parliament will be prorogued today. Consequently no information concerning Venezuela will be gathered from the Ministers except as Parliamentary papers are occasionally issued.

IBY THE ASSOCIATED PRESS-A.M.1 NEW YORK, Dec. 17,-In reply ublics asking for the position of each overnment in the Venezuelan situaon, the Associated Press has received

the following repiles:

"LIMA (Peru) Dec. 16.—The newspapers of Peru are in favor of collective action in support of Venezuela, by all the South American republics. The Peruvian government, however, is not disposed to take any action in the matter. More than three thousand Venezuelans paraded the streets last night carrying the Ecuadorean, Mexican and various South American flags. Many patriotic speeches were delivered in favor of a Latin-American alliance. Perfect order prevailed. The government is not likely to take any action, however. The newspapers here continue to protest at the action taken by Germany and Great Britain. They further assert that the Monroe doctrine is only used when it suits the United States to appeal to it."

regarding the origin of the differences between Venezuela and the allied powers. But the government and people of Chile deplore the events which have led the sister republic into a serious situation. The Chilean government, however, has decided on complete abstination from any action. Chile's principle has always been to pay her debts, and it is held here that Venezuela ought to do the same. At the same time, general opinion is frankly against the action of the great powers in treating a weak country in such a manner. It is claimed that the question in dispute should be submitted to arbitration, and it is held that the United States should intervene in an amicable manner."

I think it is quite likely that the United States will think that there cannot be such a thing as a 'parific blockade,' and I personally take the same view. Evidently a blockade involves a state of war."

The House expressed its approbation with this view. Throughout the discussion, ahe tenor of questions and answers showed regard for the views of the United States. Mr. Ralfour assured the House that the papers in the Venezuelan matter were in course of being prepared as rapidly as possible, and answering a question by Sir William Vernon Harcourt, he said they insists on its right to blockade peace-ably and refuse to let American ships through, then Admiral Dewey's fleet will be sent to Venezuela to convoy the American ships through the German and English lines. Admiral Dewey has been told to keep his fleet together. The reason this government makes this demand of Germany is because it has in writing the full statement of Germany's inten-

As for the torpedo-boat destroyer, it is pointed out that it will serve as a dispatch boat to keep Mr. Bowen in touch with the nearest cable station, in case the La Guayran cable is cut. No further orders than that noted above went forward to Admiral Dewey today, but Secretary Moody expects to have ready by tomorrow his order for the distribution of the ships of the combined fleet. At the present moment he has not reached any settled determination as to any one ship.

NO RESPONSES FROM EUROPE.

IBY THE ASSOCIATED PRESS-P.M.]
WASHINGTON, Dec. 11.—The State Department has received no responses thus far to the messages sent to the thus far to the messages sent to the European Foreign Offices relative to the arbitration proposition. It is not known here whether Fresident Castro will consent to applogize as a condition precedent to arbitration, but it is noped that Minister Bowen can induce aim to do so if this will be sufficient to meet the demands of the allies. It is pointed out here, however, that the further prosecution of attacks on Venezuelan forts will make an adjustment just that much more difficult.

If apologies are tendered and accepted, then the critical phase of the situation will be removed, and some

bitration will prevail, for the alterna-tive is now realized to be actual war-between the allies and Venezuela. It is believed here that Germany at least is not anxious to enter upon the state of war. A declaration of war would at once cioths the Venezuelans with the full rights of belilgerency, and this might greatly protract the efforts of the allies to subdue President Cas-tro.

The Sunset Telephone Company experienced considerable trouble with some of its lines, both in the city and in the country districts, about 25 per cent, on the wires being "out of order" as a result of the whole and rain.

Trains on the lines running into Los Angeles have been behind schedule time, but principally owing to the fear of washouts, and not because of any. The roadbeds of the street railway companies seem to be sound and little difficulty has been experienced in hauling the unsual large crowds. Alameda street, and the streets east of Main were clear yesterday, and the cars ran close to schedule time.

The precipitation in Los Angeles since Tuesday noon is considerably over two inches. Weather Observer Franklin says that it looks good for more rain today.

NOW FOR A SNOW MAN.

NOW FOR A SNOW MAN.

Eastern tourists and thin-blooded natives alike will be delighted in a day or two by beholding a really, truly snow man, right in the heart of semitropic Los Angeles—if the present plans of the Pacific Electric Railway Company can be carried out.

The rains of the last few days have piled the mountains with snow, far down the gentle slopes of the foothills.

Mt. Lowe is a mighty snow bank. Alpine Tavern yesterday had two feet of snow on its roof, and the gorund was covered six inches deep.

Henry F. Gentry, passenger agent of the Pacific Electric Railway Company, and a number of other Los Angeles citizens, visited Mt. Lowe yesterday and enjoyed an old-time snow-balling, As soon as the newly-fallen snow is of the right consistency Mr. Gentry purposes to exhibit a snow man at the company's headquarters on South Spring street.

Mile of Old Bulkhead Washed Away and Cottages Threatened-Great Benefit Reported from Agricultural Districts-Record of Precipitation.

SPECIAL CORRESPONDENCE OF THE TIMES SAN PEDRO, Dec. 17 .- With white-SAN PEDRO, Dec. 17.—With white-capped hills of sea rushing and roar-ing furiously, and a southeasterly wind beating down the coast with a velocity of forty-five miles an hour, interrupted only at intervals by a heavy downpour of rain, the ocean during the past two days has raged as if directed by the star of fate to destroy everything in sight. The storm that started off this coast early yesterhat started off this coast early yester day morning continued throughout the night, reaching its height this fore-noon, and causing great damage in this city and at Terminal Island. For three hours this morning the Inhabitants of Terminal—Island were battling against the fiercest storm that has visited that place in many years. The sea appeared to be rising every minute, and the people were counting the 'seconds anxiously. The tide at 10:29 o'clock stood 6 feet 2 inches, and the thundering of the huge waves splashing against the new bulkhead was awful. Fully one mile of the old bulkhead was completely destroyed, and several of the cottages along the beach were in imminent danger of being washed away. The new bulkhead, which has just been completed, at a cost of \$19,000, shook as if constructed of shavings, but withstood the storm in spite of the sarging sea, which at times covered it entirely. The three cottages that were probably in more danger than any of the others were the Lotus, La Farola and Graves resi-

danger than any of the others were the Lotus, La Farola and Graves resi-dences. At Brighton Beach the waves washed out considerable of the sand that had been heaped up in front of the hotel, but the damage was other-wise sight. The destruction of the old bulkhead will amount to about \$1000 damage. bulkhead will amount to about \$1000 damage.

At Island City, East San Pedro, there was very little damage. 'The sea did not affect this city, but the heavy rain played havoe with business, and tore up the streets considerably. Several piles were washed from under the lower end of the E. K. Wood Lumber Company's wharf, resulting in the loss of about 2000 feet of timber. Parts of the railroad track that runs to the government breakwater were destroyed, and the Southern Pacific's yard tracks were damaged somewhat. Many of the stores and residences fronting on Sixth street were filled with water last night, as a result of the breaking of a dam in the large arroyo just south of Sixth street, which caused the water to run the full length of the street three feet deep for nearly two hours. The arroyo had been filled with sand, and when the rain came it all washed down Sixth street, making the thoroughtare almost impassable. Wetherby's Operahouse and several small cottages near the arroyo suffered the greatest damage.

#### ANNUAL MIDWINTER NUMBER

The Times Special Midwinter issue will appear on January 1, 1003. It will tell the complete story of the year's progress in the Southwest. The descriptive matter will be in condensed form, and will give in the least number of words possible a history of the chief events of the year in each county and

As usual, it will be the aim of the publishers to surpass the efforts of all sivals in the same direction. They expect to succeed in their efforts. The edition will be printed on good paper, handsomely illustrated and inclosed in a specially-designed cover.

To prospective settlers in this region it will prove of much value in that Its information will be timely, authentic, and specific. Citizens and visitors will find it valuable for the information it will give to friends in the East who may be interested in the present prosperous conditions in the Southwest.

It will be the aim of the publishers to make the edition so valuable, both for the matter it contains and for its fine letterpress and workmanship, that, like its predecessors, it will have a circulation covering the entire United States. It is expected that at least 100,000 copies will be issued.

#### THE VENEZUELAN DISPUTE.

While there has been a cessation of aggressive activity in Venezuelan waters, it cannot be said that any definite progress has been made toward a satisfactory adjustment of the pending difficulty. On the contrary, the prospects of a peaceful solution seem rather more remote than they were a few days ago. The formal entrance of Italy into the controversy, although it can hardly be said to complicated the situation, has not by any means tended to sim-plify it.

The alliance of these three nations in an announced determination to press their claims against Venezuela, naturally gives rise to the question as to what would become of the claims of other nations in case this triple to coerce Venezuela into satisfying the of the ailies. The United France, Spain, and probably other nations, have claims against Venezuela similar in character to those of the Anglo-German-Italian The enforced payment of the latter claims might so far cripple of other claims virtually impossible. at least for a long time. The question is becoming more and more pertinent as to whether the other nations interested can allow Great Britain Germany and Italy to take precedence

in the settlement. An obvious way out of the difficulty would be for all nations having claims

When railroads outgrew State lines the Interstate Commerce Act was against Venezuela to join the alliance and act jointly and peacefully in determining, through a special arbitration commission or through The Hague tribunal of international arbitration, the justice of the various claims. By joint action, also, a method could be devised for the payment of the claims awarded by arbitration, which would make it possible for Venezuela to meet the obligations with the least embarrassment to herself. There would be no escape for Venezuela from the satisfaction of claims thus adjudicated, even were she inclined to evade pay ment. It is quite within the bounds of possibility that some such plan will and must be acted upon with modern eventually be adopted as a means of tion. As the President so well said it. avoiding complications which might his message, the unbounded proslead to very serious results.

The situation, as regards the proposed blockade of Venezuelan ports, is peculiar and far from satisfactory or reassuring. There has been no declaration of war against Venezuela yet the warships of Germany, Great Britain and Italy have established what has been termed a "peaceful blockade" of Venezuelan ports. The idea of a "peaceful blockade" appears to be a new conception, and a not very consistent one. The phrase is in effect a contradiction of terms somewhat analogous, in fact, to 'peaceful war," which in the nature of things can have no existence. This point was made clear during the debate in the British House of Commons, yesterday. Says the press report: Mr. Healy, Irish Nationalist, asked if the United States assented to a blockade which would exclude United States vessels. Mr. Balfour replied: "Neutrals are not consulted when

buying innocent things in the stores— Christmas presents in part, no doubt— instead of loading themselves up with instruments of death with which to kill Germans and Englishmen and to blow ironciads out of the waters of the Atlantic Ocean and inlets adjacent thereto. In other words the war cloud has lifted a trife. It would be sad, indeed, were the Christmas holiday in the southern republic turned into a saturnalia of slaughter. Let us hope that Venezuela will settle those bills and the ships of the allied fleets will soon have their sterns toward the land f quick and frequent revolutions.

The proposition to colonize the Phil ppines with negroes from the United states has its strong points. The cli-nate is suited to the race and the chances for that people to develop themselves and our new possessions in the Far East are something that is worth their while to consider. In every school in the city except two, a majority of the pupils voted to give the amount to the Children's Hospital, and of all the pupils in the city schools more than two-thirds favored this use of the money.

SAN FRANCISCO, Dec. 17.—The Streme Court has just decided an inte sting case coming from Tulare count the plaintiff is one Ulty McCabe, wh from Ireland by Mathew Healy, who promised to make the boy his heir. Healy died without making a will, and his relatives took possession of the very considerable estate, which he left. The lower court decided that as Healy had failed to make a will, and as McCabe had carried out all the covenants which he had entered into with the deceased, that a court of equity had the right to make a will and turn all the property over to the young man. This judgment the Supreme Court has now affirmed.

hundreds.
Yet those children of the steppe are no barbarians. Their instinct of beauty is strongly developed. They are passionately fond of poetry. Their tents are models of cleanliness. Under the reign of the Czarina Katherine a tribe of Calmucks revolted, and, getting frightened at the approach of government troops, tried to effect its escape across the continent, and would have across the continent, and would have reached the Chinese frontier, in spite of a remorseless pursuit, if their fe-males had not insisted on stopping every now and then to attend to ar-rears of laundry work.

HAIR AND NO HAIR.

Hairless faces are greatly admired in many parts of Mongolia, and in the same way the natives of Congoland may have developed their satin-like skins. The Papuans, on the other hand, have cultivated their wool till it sticks out like a bundle of Spanish moss ready for the mattress shop. Nostrums for straightening out kinks still sell in Dixie, in spite of all disappointments, but the darkies of Santo Domingo appear to have reverted to African canons of taste and boycotted the daughter of a dusky fashion leader who had married a Chinaman:
Just for a handful of horse hair she left us;

BEARDS AND WIGS.

When Richard Burton visited Mecca in disguise He was often amused by overhearing the native's comments upon the appearance of his country-men. The smooth shaven officers of a men. The smooth shaven officers of a Red Sea steamer surprised the Mussui-man pilgrims and positively scandalized the women of the harbor towns. "What do you call that thing?" asked a daugh-ter of Ishmael, pointing at the uni-formed captain. "It dresses well, but formed captain. "It dresses well, but it can certainly not be a man."
The good wives of a Muscovite village howled like coyotes when Czar Peter ordered their husbands to shave on pain of the knout. That astonishing ukase was actually enforced in seven provinces of the great empire, the autocrat of which had got his notions of propriety from Western Europe. His Turkish neighbors sympathized with those wailing squaws and the traveler, Vambery, explains the paradox as follows: "The ancient Roman," he said, "shaved every morning, and the Turks cultivate their beards, both being actuated by the desire of distinction from surrounding "barbarians." That very word is derived from the long beards of the Goths in the North and the Numidians in the South, while Mussulman aristocrats desire distinction from beardless Calmuks and negroes."

The idea of class privilege may have had something to do with the wigs of the middle ages, and made the form the conditions of the middle ages, and made the form the conditions of the Bahmin Nautof girls could not done their way into-any operahad something to do with the wigs of the middle ages, and made the forthe middle ages, and made the for-tune of a Roman chemist, who, accord-ing to Aulus Zellius, had invented a recipe for turning black hair yellow. The red hair of Celtic belies was at a still higher premium, being less easy to imitate, and more utterly different

from any African product. COLOR OF EYES. Gray and even green eyes once were popular in Southern Europe.

"Confianza tengo en tus ofos verdes,"
a Castilian minstrel assures his inamorata: "I have faith in the pronise of your bonnie green eyes," "I
shall not change while they preserve
their color," replies his lady love,
"The green-eyed monster!" but trustworthy travelers agree that blue eyes
actually frighten the natives of Centrial Africa. It is a postlent that orecenactually fragment the natives of Cen-tral Africa. It is a portent that amaze them more than the compasses an rifles of the witchcrafty foreigners, an a Kaffir maiden, who was ordered by her chief to serve the viands of Capt Charles Baldwin, gasped with horro-whenever she looked in his face. SHADES OF SKIN.

SHADES OF SKIN.

It has been questioned if the children of the tropics admire their own compiexion. The favorite wife of an Abyssinian emir took a photographer aside to ask him in a whisper how much extra he would charge for a white portrait, and would probably have accepted the negative as a triumph of modern art. A Solomon Islander, on board of the British cruiser Beagle, was covered with strange white or rather mother-of-pearl-colored blotches, and having incurred suspicion of leprosy was threatened with expulsion, when he finally confessed that he had worked for a few months in a Melthe vessels. Mr. Balfour replied:
Neutrals are not consulted when are in a state of war with a red party."

the other hand, often prefer a somber Othello to the gayest Lotharios, and the casting vote ought to remain with the natives of south midiand countries as Spain or Italy. Instinct might make them incline to the sunny side of the problem, and prize a tropical hue as more apt to afford immunity from malarial disorders, but the political supremacy of northlanders generally turn the scales, and a Calabrian hag became so ravingly fond of King Alaric that she poisoned him to forestall the risk of 'his infidelities."

PAINTING AND TATTOOING. PIANOS PLEA

The pale-tan colored New Zea ers, however, generally decorated hides with dark pigments. Dark by good taste." Yes, but tastes differ.
"Your wife is a first-class house-keeper," said the Soudanese chieftain who visited the tent of Baker Pasha: "pretty good-looking, too, if you could only flatten out her nose and get something to blacken her front teeth."

In some districts of Western China the sight of a caucasian proboscis will convulse a whole community. "Hurry up! Just look at these frights! A gang of fellows with faces like vultures." Yet the companions of Rev. Amos Clark were northlanders, whom the natives of Italy would have been inclined to class with the flat-nosed races. On the upper Yang-tse-Kiang the profile of Signor Marconi might create a werewolf panic.

TASTE IN NOSES.

King Solomon compares the nose of his dulcina to a "tower set between her eyes," and his countrymen might appeal to Jeremy Bentham's theory about the utilitarian principal at the bottom of all attractiveness. Isn't a long nose beautiful? Does it not preëminently answer its purpose of investigation." "So does a long snout," a disciple of Confuctus would reply; "it certainly excels in a competition for snapping up food, but would you call the Jaws of a crocodile beautiful?"

The test of superior usefulness, in part, might lead to strange inferences, and there are nations who seem to measure their standards of beauty by the farthest possible removal from brutish similitudes. Animals grin with gleaming white fangs; hence that Soudanese preference for black-toothed smiles. Beasts are hairy, and the belles of the Calmuck Tartars shave their eyebrows and enlarge their foreheads by pulling out scalp hair by hundreds.

Yet those children of the steppe are strument must from the factory, buy now such the Chickering Pease, Howard mann at much le than you will per hence. Every guaranteed be the maker.

BEAUTY BY WEIGHT.

California provision dealers are setting a good example by selling all sorts of country produce by weight, but the oriental caterers of the matrimonial market have long applied that method to the females of our species. In many parts of the Türkish Empire beauty and obesity have thus become almost interchangeable terms. The brightest faced damsel from Cyprus or Smyrna risks being outclassed by an Albanian heavyweight.

Making hearts ache wherever she goes, But also your corns if she steps on your toes. and nobody ventures to dispute a superiority so easily verified.

The bias of the public voice Reduced to a question of avoirdupois. In the land of the prophet, too, female society leaders must come prepared to flatten out opposition without removing their vells, and there, as farther west, rural delegations often eclipse the representatives of the city: But never yet a bride or maid In Araby's gay harems smiled Whose boasted charms were not outweighed By Abdul Hassan's blooming child. Whose boasted charms were not of weighed By Abdul Hassan's blooming child. The natives of Africa have adopted the fashions of their conquerors, and on the upper Nile Gordon-Cumming saw a Kaffir virago in the process of fattening her daughter with dumplings of milk and durrha porridge, reaching for a stick whenever the pupil tried to shirk her task.

"Children have to be forced for their own good," she explained. "There is a 200-pound hussy in the ferry settlement who is setting her cap at the eldest son of our chief, but with the help of Allah, we'll heat her vet." The natives of Africa have adopted

The less dilaphlated poet Goethe was tormented by the importunities of a young buestocking (Bettina von Arnim.) who had fallen madly in love with him in his sixtieth year. HEALTH BEGETS BEAUTY.

The Abyssinians file their fangs, and their neighbors blacken them, but no nation thus far discovered admires unnation thus far discovered admires unsound teeth. "Isn't that a beautiful tree?" said the sister of Stuart Mill, pointing to a thousand years' oak. "Yes, it's venerable," said the exemplar of verbal correctness, "but a great deal too hollow to call it beautiful."

A well-trained cripple might emulate the exploits of able-bodied athletes, but the charm of their motions is less easy to imitate, and, on the whole, we may accept the conclusion of the sculptor, Thorwaldsen, that Grace and Beauty are the twin daughters of Health.

Second Day's Swarming of the Honey Gatherers Devoted to Selection of the

nir Bee Keepers' Association yester-day was devoted to the election of of-fibers for the new year and the dis-cussion of amendments to the pro-

feers for the new year and the discussion of amendments to the proposed law for the protection of the apiary interests.

At the afternoon session, F. E. Browne of Hanford, Kings county, who is secretary of the Central California association, delivered an interesting address in explaining the methods of the National Honey Association of Chicago, in marketing the honey crop of its members. He especially urged those in this association to store their honey and report the amount to the national association, so it could be marketed to the best advantage.

The annual election of officers resuited as follows: T. O. Andrews of Rincon, president; J. F. McIntyre of Ventura, secretary (reflected.) Vice-presidents from the different counties in the association were chosen as follows: L. E. Mercer, Ventura; Allen Hart. Los Angeles; George L. Emerson, Orange; J. K. Williamson, Riverside; Delas Wood, Santa Barbara.

The session last night was devoted principally to the further discussion of the amendments, and the business of the association will probably be finished today. at New York on Decembrad Commissioner C. Ailing Men Expect a Cure.

I Have the Largest Practice Because I invariably Fulfill My Prom.ses.

"Weakness."

Tam confident that I have cured more cases of re-called "weakness" than any other physician. There may be determined that any other physician. There may be determined that the cling to the old and ineffective practice of dosing with tosics. "Weakness" is merely a symptom of local disorder that requires local disorder that requires local freatment. This is a truth that have discovered, and that has been fully established by my secons in effecting permanent cures. My method is driginal with myself, and is employed by no other physician.

Under my original system of treatment these troublesome allments are thoroughly cured in about half the usual time required. 1--s is important, because it removes the dangar of chronic inflammation being established in the prostate gland. Do not take chance-my method is the safest and surest treatment known.

My colores chart should be in the postession of every man. It is interesting and instructive ds a study and is heliful in making a home diagrants. Sent

When I have accepted your case for treatment you may look forward to a complete and permanent cure, and with the very first treatment the curring will begin. This is pretty definite talk upon what is commonly regarded as an uncertain and speculative matter. But I am in position to speak definitely and positively. With me, the cure of men's diseases is not uncertain or speculative at all. I have treated so many cases that I know just what I can do and what I cannot do, and I never promise or attempt too never promise or attempt too much. I accept no case in which I have doubt as to my ability to cure, and results are always equal to the claims I make.

A thorough cure without pain or cutting. Every case of varicocels I treat proves the superiorty of my mild and harmless method, and the folly of resorting to surgery. In most instances it is even unnecessary to detain the patient a single day from his business. The treatment I employ is distinctively my own, and can be had at my office only. Do not submit to the knife and hospital expenses, when a complete and permanent cure can be had without the loss of time, and without the loss of time, and without pain or cutting.

Specific Blood Poison

DR. O. C. JOSLEN

Corner Third and Main, Los Angeles.

#### A Special Practice Should Be Built On Merit Alone.

For 30 years this has been my aim. Years of experience and success are back of every drop of medicine I give and every application I make. When I give a treatment I have a definite object in view. I accompile a certain end. I do not treat in a promiscoous way. Instead, I go right to the core and rout the cause. If your case is a corable one, my accepting it is equivalent to a guarantee of a cure. The man or woman who has suffered disappointment at the bands of many is the one I am most anxious to meet. They are in a position to quickly recognize the merit in my treatment and are best fitted to co-sperate with me in bringing about a cure. Examinations are Free. All X-Ray work furnished free, that you may see, know and not guess.

Varicocele.

Under my plan of treatment the patient impreves from the very beginning and is cured in four to six days. All pain ceases, soreness and swelling quickly subside, the pools of stagnant blood are forced from the dilated veins, which rapidly assume their normal size, strength and soundness.

Brings with it nervousness, loss of memory and loss of ambition, robs you of strength, absolutely unfits you for study, business or pleasure. My treatment for weakness will correct all these evils and restore you to what nature intended—a hale, healthy, happy man, with physical and mental

Contracted Disorders.

From statistics compiled from the thousands of cases I have treated, 90 per cent have recovered in seven days or less, although many of them had been treated by others for much longer periods without beneat.

# Specialist for Men.

We are firm believers that nothing "succeeds like success," for all these years our one study and aim has been how best to treat and cure alling men; being graduates of the leading colleges of America and connected with the best hospitals, the ground work for our success in our chosen specialty was well and thoroughly laid, and we at once for our success in our chosen specialty was well and thoroughly laid, and we at once began our work. Our experience during these years of hard work has stored our minds with useful knowledge and prepared us to understandingly treat and cure diseases to which we give our constant and personal attention. In asking men to come to us for advice and treatment, we do so knowing full well our ability to cure them of any and every disease peculiar to man, providing the case is curable. We use no harsh measures, no strong and stomach-destroying drugs; our methods are distinctively our own. You can get our treatment nowhere else. We never mislead a person visiting our office for consultation by promising a cure when the case is incurable. No misrepresentation of any kind is ever made in consultation with us; you get nothing but an earnest, straightforward talk. We ask any and all men who are in need of medical advice to call. Consultation always free.

Years VARICOCELE.

The constant painful dragging-down aensation produced by this vitality-sapping derangement is a severe strain on a man's nervous system, that grows greater in intensity the longer it is neglected. Variedeels usually appears on the left side, in the shape of large, knotted and twieted veins. and the unaffected side will grad-ually show more and more sympathy, as the case progresses, until a com-plete loss of vitality occurs. We have made innumerable cursa in cases of varicocele among Los Angeles repre-sentative men, and we have their unsolicited consent to use them as reference whenever an intending pa-tient wants to know of our capabil-ities.

This of itself was sufficient to cause alarm, and even to kill the faint-hearted, of whom there were quite a number collected on that small area of seven and a half acres.

With but few exceptions those who were conveyed to the key in the small boat fell victims to the disease, and are buried beneath the sandy soil. When Dr. Mudd was given charge he stated to the commanding officer that it would be advisable to discontinue this practice; that the fever was in our midst, and that it could not be dislodged until the poison had expended itself, advising that all cases be brought to and treated at the hospital. This was acceded to, and from his manner of treatment in the disease, a great change was soon to be noted.

change was soon to be noted.

From this period until the arrival from Key West of Dr. Whitehurst everything was progressing favorably, no death occurring. Dr. Whitehurst, perfectly conversant with the mode of treatment, he having had immense practice in the disease, approved Dr. Mudd's manner of treatment, and it was continued throughout the period the fever raged in our midst. The fever began to assume a more viruelating type, and in spite of the untiring exertion of both began to make sad in roads into our numbers.

Everyone now thought of self alone. There was no respect shown by the attendants, they being soldiers taken from different companies, to either the dead or the dying. No sooner had the breath left the body than it was coffined and hurried over to its last resting place, there being a boat, with a crew, detailed as the burying party, always awaiting. In many instances comins were brought into the hospital and placed alongside of the bed to receive the body of someone expected to die, and had to be removed again, the patient still tenaciously clinging to cause their own condition to become worse. During its progress in the self party of the self party in the self place peopled by fiends than anything else it could be compared with, suddenly became calm, quiet and peaceful.

Some attempted to assume the tone of gayety and indifference, but upon their faces could be read traces of other feelings. For two months the fever raged in our midst, creating havoc among those dwelling there. During this time Dr. Mudd was neveridle. He worked both day and night, and was always at post, faithful to his calling, relieving the sufferings of humanity as far as laid within his power. The fever having abated through the want of more subjects, a contract physician from New York arrived at the post and relieved Dr. Whitehurst of his duties. When the new doctor took charge there were but two or three sick, and they were in a state of convalescence.

Soon thereafter Dr. Mudd was taken down with the fever in his quarters, and during the entire period of his illness was never visited by the New York doctor, the surgeon in charge, he remaining closeted in his room. The only medical treatment received by Dr. Mudd during his illness was administered at the hands of Spangler and myself. True, neither egits knew much about the disease or fits treatment, all the everelones of the representations.

Mad. Andrews immediately rose up and spoke thus:

Everything remained quiet during the remainder of the night, but the next morning the fort within was all bustle and preparation for pursuit. There was a steamer lying in the harbor at the time, the commander of which readily consented to go on the search, and about 8 o'clock she steamed out after the escaped party. After cruising nearly the entire day they falled to hear or see anything of the escaped party, and the steamer returned into the harbor again. (To be continued.)

On the night of March 6, 1868, their plans were completed. Norreil was a sentinel on Post No. 2, guarding the smail boats within the boom. At 10 o'clock at night he went on duty, and Grenfell, with three other prisoners, succeeded in eluding the sentinel within the fort, making their way to the northwesterly side, letting themselves down through one of the portholes into the moat, thence to the breakwater wall, where they walked to the appointed rendezvous, arranging all the necessary articles of food and water for their perilous undertaking.

The night was pitch dark and a furious gale raged at the time, which had existed for six consecutive days. Never did men venture on a more perilous undertaking. The white-capped waves rose even within our sheltered harbor to fearful heights, but beyond in the Gulf, during the day, they reached to mountain heights.

The sentinel waited until 11 o'clock was called, and then embarked with Grenfell and the others in a small boat picked out for the purpose, and soon, with sail set, fled from their ocean-bound home. No one as yet outside of my roommates and my self knew anything of it. The hour of 12 arrived, when the sentinel on Post No. 7 cried out the hour. No sound came from Post No. 2. No. 1 again cried out the hour, and yet no sound from Post No. 2. The corporal, with a witness, ad-

# Christmas Gifts for Readers of The Times

\$11.50 DINNER SET FOR \$3.75.

For the purpose of securing new subscribers, The Times is offering a set of dishes in connection with an annual subscription to the paper at a price below actual wholesale cost in carload lots. Such an opportunity has never before been offered newspaper readers on the Pacific Coast.

#### The Terms.

Any person may secure a set of these handsome dishes by signing a subscription contract for The Times for 11 months, and
payment of \$1.00 down upon delivery of dishes
to cover expressage and delivery, and \$1.00
per month for a period of 11 months, which includes subscription price of The Times and the
25c monthly payment on the set of dishes. Each
set is guaranteed to be in perfect order. Any
broken or defective pieces will be replaced if
notice is given immediately and defective
piece or pieces delivered to The Times office or
any authorized agent.

Mail Subscribers.

It will be necessary for patrons taking paper.

Mail Subscribers.

It will be necessary for patrons taking paper by mail to pay three months in advance on the contract in addition to the first payment of one dollar for delivery charges on dishes, making a total advance payment of four dollars. A copy of the contract is printed herewith, which may be cut out and forwarded to The Times office.

Gentlemen:

In consideration of your delivering to me as a premium one (\$11.50), 42 piece, handsomely decorated dinner set, I hereby subscribe to The Times (Daily and Sunday edition), for a period of eleven months and agree to pay for the same as follows: \$1.00 on delivery of the dishes to cover express and delivery charges and \$1.00 a month, which includes subscription of The Times, for the period of eleven months covered by this contract. It is understood that these dishes will be delivered to me within thirty days after the approval of this order by you, and that said dishes remain the property of The Times-Mirror Co. until this agreement has been fulfilled. It is made part of this agreement that I will at once notify The Times-Mirror Co. of any change in my address.

ample of rare pluck this case carries off the banner. With less than \$2 in her pocket when her husband died, and with the quartette of three boys and one girl far too young to be anything but a care, she has fed and clothed them and within a few months at most she expects to be independent of outside help. Her greatest worry is over the future of her oldest son, who is fourten, but who, while an ambitious youngster, is inclined to associate with bad boys of the neighborhood.

There is nd sign of poverty about the neat home. The boys sell papers and earn nearly enough to clothe themselves, and a pretty little girl of ten not only earned \$50 during vacation from school, but is making dainty Christmas gifts which she sells, already netting several dollars. The mother works half of each day at a neighbor's and sub-lets half of her home.

charities of Los Angeles in practical measures for the prevention of pauperism, the promotion of thrift, and the more certain relief of the poor. It strives also to prevent indiscriminate alms-giving and to detect imposition by making work the basis of all relief to the able-bodied. These methods are sought by the maintenance of a central bureau or clearing-house of charities, in which every case relieved is registered. The archives of the organisation contain the history of over six thousand cases that have been examined during the past nine years. These seconds have proved valuable on many occasions in preventing imposition by dishonest seekers of ald.

An example of the value of the central organization was given yesterday when a Catholic institution telephoned for the record of Charles Duland, who had applied for relief. Duland claimed to have been a soldier in the Philippines, stranded temporarily in Los Angeles. The day before he had applied at Mr. Stuart's office for assistance, telling practically the same story. He was given a small amount with which to buy food and returned later and obtained 50 cents with which to go to Santa Monica, where he said he expected to meet friends who would help him. He is believed to be an imposter, and it is thought he has worked various other channels in a similar manner.

Only-routine business was transacted yesterday at the regular meeting of the directors of the Chamber of Commerce. The principal matter brought out was a letter from Senator Perkins in relation to the preservation of the forests, and the resolution of the Chamber of Commerce concerning an order of the Treasury Department that no more than \$100 should be spent in extinguishing one forest fire. Senator Perkins wrote that he had talked with the superintendent of the forestry division of the government in Washington and that the California delegation in Congress would do what it could to secure a sufficient appropriation to carry on the work of preserving the undergrowth on the forest reserves. It being stated that but \$400,000 is available this year for work on the San Pedro Harbor and the contractor having estimated that \$500,000 would be

nterest of city officials continues to centered in the prospective doings the new City Council. As far as of the new City Council. As far as the members-elect are concerned the large number of applicants for positions make the initiation into official life most strenuous. After a Councilman has promised the same position to three or more applicants and discovers in caucus that none of them can get it, he finds it something of a task to explain. Also when a legislator-elect agrees to support one man and this man discovers, from another legislator-elect, that the first-

another legislator-elect, that the first-named has sought the appointment of someone else in caucus, there is apt to be trouble. Ever since the first attempt of the new Councilmen to "get together," talk of frauds, cheats, throw-downs, feuds and machinations has filled the air. Not until yesterday did the discussion take definite form in any particular instance. Councilman-elect Davenport of the

Sixth Ward was the first one of the incoming legislators to "face the music" in the garish daylight.

Davenport, it is asserted, promised that he would support Harry Hopthe Park Commission. He is said to have so stated to Hopkins and to a mutual friend. Instead of standing by Hopkins in the caucus, it is asserted that Davenport showed a decided preference for Jack Reeves, a gardener, resident in the Sixth Ward.

resident in the Sixth Ward.

When this reached Hepkins's ears he was naturally incensed and asked the friend to question Davenport and ascertain whether there was truth in the statement. Apparently there was, for yesterday afternoon about 2:30 o'clock Davenport appeared at the City Hall and called Hopkins from his desk into the corridor. According to those by whom the conversation was subsequently related the following dis-

Leroy K. Daniels, who served as inspector in Precinct 35A, at the last election, was disgusted yesterday because the city paid only \$8 for work which he estimated was worth \$9. The Council decided to pay all alike, and fixed the compensation at \$8.

There are queer suspicions in regard to a young colored woman, named Mrs. John Munson, who was before Judge Alien to be examined for insanity yes-

Mins. Munson was charged with insanity by L. Schmidt, who, for some strange reason, failed to put in an appearance when the case came up. It is claimed that Schmidt accused her of insanity to get her out of a house for which he is agent.

His complaint against her states that she has threatened to burn down a barn at No. 822 Lyon street, and that she claims certain property which really belongs to someone else.

The facts appear to be that Schmidt was agent for the Lyon-street property. The Munsons were tenants there, lie ordered them to move out.

Airs. Munson refused to leave the house. When the agent went to bee if they were out, Mr. Munson told him that he couldn't get his wife to leave the place.

gage against the estate and to this decree Mrs. Winston consented.

The plaintiff in this case was to have received a legacy of \$3740, and alice Winston was to have had a legacy of the same amount. There is now no money to pay these legacles.

There is another side of the case. On behalf of the bank it is claimed that the \$33,347.03 was owing to the bank for money advanced to Mrs. Winston, not individually, but to carry on the business of administering the estate.

a Nihilist.

Returning to the office of Mr. Harris Monday, he said he was hungry and was given three meal tickets. Then he wanted \$3\$ to pay to an employment agency for a job. Mr. Harris declined to do this, but volunteered to give him an order on the agency.

Powers then became abusive and demanded \$10 from Harris, threatening personal violence if he didn't get it. He pounded the table with his fist, shook it in the face of the frightened secretary, and acted like a madman.

His attorney, H. H. Appel, Esq., made a clever attempt to stop the suit with a technicality. He introduced a demurrer in which he denied the right of the plaintiff, William, to bring the suit at all.

Appel contended that, as the proceeding was quasi-criminal, only the commonwealth could appear as plaintiff against Lopes; that no private person has the right to proceed against an officer to oust him.

Judge York decided against Appel, overruling the demurrer,

Judgment went for the defendant.

Slow Jury-getting.

The case against the twelve laborers, arrested for working on the piant of the Valley Gas and Fuel Company, in defiance of the city ordinance, consumed another full day in Justice Morgan's court yesterday.

When court adjourned at 4 o'clock 109 men had been summoned, forty-one had been summoned, forty-one had been examined by the attorneys on both sides, and out of the whole bunch but six jurors were secured. The case will go on again at 10 o'clock this morning.

Among the amusing things evolved by men who wish to escape serving on the jury was this: The prospective juror said he did not have confidence enough in himself to believe, after hearing the evidence, that he could decide as to the guilt or innocence of the twelve men. He was challenged "for cause," and excused. who says his name is James Simonds, yesterday, for burglary.

Don't Clean Ribbon on a Hat

Y OU have come to the rescue of others, and I hope you will come to mine also. I would like to clean a white satin ribbon without removing it from a hat. You will greatly oblige me by doing the same.

Reluctant as I am to disappoint you in this, your first appeal to me, I cannot encourage you to attempt cleaning a ribbon trimming without removing it from the hat. If it were a smooth, plain band you might treat it carefully with flour or starch. If, as is probable, it is twisted and knotted into lows, you must take it off before cleaning.

PLEASE answer through your valuable paper where I can sell em-broideries. Is there any place I can exchange embroideries for anything serviceable in the house?

As may be surmised, this somewhat singular query has need behind it. It is therefore submitted to the Exchange for consideration. It is quite possible that, in view of the holidays, somebody may wish to avail herself (or himse f) of it.

Sawdust as Packing for Canned Fruits

W HILE I rock one child and hold another, I may, perhaps, suggest the reason why you did not succeed in keeping the tomatoes put up by the cold-water process.

Do you not know that sawdust is heating, and that anything put up as you put up tomatoes must be kept cool, dark and dry? It can be done,

My mother has kept rhubarb by these means, and, as "S. L. A." has said, we always wish there were more before spring. I advise you to prepare your fruit and have plenty ready; then cool your jar by letting the water run in it and leave it partly full of cold water. Now fill your jar full, letting the water take its place as you fill your jar. Then, when full and ready to seal, turn the water on again and seal immediately. Put away at once. Don't leave it in the light or heat until warm. Try

Now here is another way of making jelly without cooking. I have never made it myself, but have eaten it. A friend of mine always puts it up this way and it is delicious, though it is not, I suppose you would say, "ripe" until it is two months old. That is, it tastes raw, or "sugaryfied." There! did I coin a word, or not? Excuse me! I did not intend to, but will let it go at that. This is for juicy fruits. My friend squeezes the juice from her fruit vithout boiling or cooking it; takes half sugar, half juice and beats with Dover egg beater until it thickens, which she says does not take long. Then she puts it into her glasses and on top places a quarter of an inch of sugar; covers and sets away until ready for use. If the ladies who like green tomato pie will put a piece of butter the size of a walnut into each pie, it will greatly improve it, following the recipe as given in the paper some time ago.

recipe as given in the paper some time ago.

Now for the disagreeable subject of vermin in the hair! Here is a remedy my mother had occasion to use on my head when I was a child. I got "them" at school, and as my hair was thick and fine, and this application never hurt it, I answer for it that there is no disagreeable odor

from its use.

stand for twenty-four hours, allowing room for the berries to swell in the bottle.

Shake well and shampoo the hair with it, using the fine comb freely.

As I said, this does not injure the hair. If used-freely before the shild gets the detestable things into her head, they will never come. That is, hey will rot go where it is.

Hoping this will be of use to some one or more of our Exchange I along for this time.

elose for this time.

English Robert, the gardener, had his word when I read the first part of this letter to him: "But, mem, we put our hice up in awdust. If 'twas very 'eating-would we do that?"

The objection has weight. I have used sawdust for years for packing pherry vinegar and very delicate canned fruits. In the recollection of raspberry vinegar and very delicate canned fruits. In the recollection of their perfect condition, I may be permitted the modest doubt as to the force of our correspondent's reasoning in re sawdust. Especially, as I am still without word from anyone who has canned tomatoes whole by the cold water process—and successfully. Pie-plant and gooseberries have been preserved thus, according to several authorities. But not a syllable in evidence of tomatoes! Before I "try again" (next year) I should like to have decided encouragement in the shape of direct testimony.

"M. N. P." has the thanks of the Exchange for her helpful letter, doubly valuable when one considers the circumstances in which it was written. One comprehends, in reading it, why "the hand that rocks the cradle rules the world."

#### Don't Scald all the Flavor Out

WRITE the following for the benefit of the lady who is having trouble in making hard soap. I have made pounds and pounds of hard soap, by simply following the directions given with each can of bye. All brands of lye give directions. I am positive if she should follow directions. tions exactly, she will have no trouble in making fine hard soap.

If the ladies that can rhubarb would use boiling water instead of cold water, they would never have any trouble in keeping it. Fill your cans with rhubarb, then pour boiling water over it and seal.

A SUBSCRIBER.

Is the flavor of the fruit as well preserved as when cold water is used? As I understand it, the chief recommendation of the cold water process, apart from the saving of trouble and work, is that the fruity flavor is not scalded out of pie-plant and berries.

#### Horrors of the Drug Habit among Women

I N looking over your valuable Housewife's Exchange, I read with heartfelt sympathy the story of "Victim," and feel like coming to her assistance. I was a victim of that great curse, the drug habit, for five years and can therefore know what one must endure, if once a slave in the relentless toils of the awful habit. I have now been cured for three years. I was cured in less than three weeks, without any suffering, doing my housework as if nothing had happened. Now, if "Victim" wants to be cured I will give her the address of the institution that helped me, and she can get all the information she needs. She is too young to ruin her she can get al. the information she needs. She is too young to ruin her life with years of slavery to the drug habit.

Hoping this will reach her soon, I remain,

A. H. B.

Hoping this will reach her soon, I remain,
How the women who glance carelessly over the foregoing letter any
conception of the prevalence of the fatal "habit" among housewives? I say
"housewives" advisedly, for statistics kept by family physicians show that
housewives proportion of women who have fallen "victims" to it are by far the larger proportion of women who have fallen "victims" to it are matrons and mothers. The reason for this is patent. A housemother must keep up and keep going no matter how much she suffers from bodily pain and weakness. She is the spring of the domestic machine. A night of

She is the spring of the domestic unchine. A night of another day's work. John and the children must, the word is astir for mother day's work. John and the children must, the word is astir for well. If she collapses it means utter demoralization.

Ohen up helf of the Boild large, smooth beets until thoroughly cooked and scrape on the skill. With a small spoon scoop out the insides of the beets. Let them get perfectly cold. Chop up half of the beet centres and mix with them as much minced ham or tongue and chopped parsley. Season with salt and pepper and put the mixture back in the beets. Set the beets on lettuce leaves and pour a mayonnaise dressing over all.

#### TO KEEP HOUSE PLANTS FREE FROM INSECTS.

DISSOLVE a bar of laundry soap, shaved fine, in a quart of lukewarm water. Set over the fire and bring to a gentle boil. Keep this up for ten minutes. Take to the table, away from the stove, and add two quarts of kerosene to the mixture, gradually beating all the while with a Dover or other egg beater. It should is thick as mayonnaise dressing when done.

Keep in a cool place. In using, dilute one cupful with two gallons of water. It will be almost milk white.

Spray the plants infested by aphidae, red spiders or other greenhouse pests with this.

The recipe was given to me by a celebrated florist a: may be depended upon.

Some day when you have time and space I would like opinion on how far a mother's duty should be concliden.

I am at present living with a near relative and an enaid or housekeeper. One of the sons of the family has been the past year and a half a habitual drunkard, working enough funds to supply him with liquor and sufficient electronic properties and for the remainder of the time imposing an In order to shield him and keep herself she works in a shop. In to everyone except the offender to see her white drawn face all she has done to make him mend his ways and become abut in all this time there is no change for the better. Yes imagine that this has a dreary effect on our home. I am still it is not taken into consideration by anyone in the homs it to outsiders for me to admit at any time during the day a creat sodden fellow with a face like a lobster, while I am trembles lest he may tumble over the little girls who are todding areas himself to sleep where I have to attend to my housework dropped our friends one by one, for who wants to bring the house where they may be confronted with an object of "Some day you may write on the subject which I you to treat. If you do, I will be very glad to know what row also to see if your opinion coincides with mine.

I T HAS long been my "opinion" that every habitual druming the such unfortunates, where they can be treated as in any other kept until discharged as "cured." The very existence of subwould hold back many an one from indulgence in the "specific trank drunkenness as a crime against family and enfectually dispel the glamour that for weak, bumptious youther the flowing bowl." #### Some Suggestions From a Grandfaller

DO NOT desire to be obtrusive, but, having noticed empiring in the mothers' corner, and signed "G. B.," I thought perhaps not object to one of the sterner sex giving a few sugther benefit of the young woman of twenty-four.

No young man, with any respect for himself or for the would even dare jo intimate that the young lady's mother was The welfare of the daughter is forever a source of the test to the mother, and her presence is only too often a necessity not only suggest her making her mother her confidant, but intimate to the young man or men that if her mother's presence is only too often a necessity not only suggest her making her mother her confidant, but intimate to the young man or men that if her mother's presented in the property of the young man of pure mind to drive away the natural guardians of the young woman, ashe be so unwise as to yield to the young men's importunity. to drive away the natural guardians of the young woman, she be so unwise as to yield to the young men's importunits not only regret in the future the acts of the past, but will down in sorrow to the grave that mother who has spent her listing over and caring for her while she was too weak to can be Better far to tell the young men she can dispense with their with that of the parent who would fight until death to sail and grief through actions of this kind not to try to show that to the questioner.

A GRANDFAL

"OBTRUSIVE" and "obtruding" are not words be nection with the words "A Grandfather" honors the rand the ditor thereof by writing. Such excellent oil as is his observation and experience is a welcome offering. Fashing his observation and experience is a welcome offering. Fasting seal (and for once wisely) upon this subject by ordaining connecessary function of society life. It is not that mothers do adaughters, or that they have injurious suspicions as to the characters, that they would maintair a tender watch upon their goings, their doings and their sayings. But impulsive youth is word strikes out word, as flint fire, and young heads are light to Charlotte Brente had her own hot and hasty youth in wrote:

"ROUGH - HOUSE" BURNS MEETS White Pug Says He Will Straighten the Ethiopian Up in a Hurry, and Black Boy Promises to Stay With it Tonight's attraction at Hagard's Parilion is the much-heralded twenty-round fight between Billy Woods and "Rough House" Charles Burns, the two disciples, whom Msnager McCarey has engaged to define to the local public a slugging match.

Woods, the local colored boy, has promised faithfully to surprise all his friends, and ascerts he has a new style of fighting that will get the long end of the money, Burns still thinks Woods will crouch, and says he gets fat pick, fing off that kind. Harry Stuart will referee the fight.

easily affected so that one minute you laugh, and the next fall into convulsive weeping?

Do you feel something like a ball rising in your throat and threatening to choke you; all the senses perverted, morbidly sensitive to light and sound; pain in the ovaries, and especially between the shoulders; sometimes loss of voice; nervous dyspepsia, and almost continually cross and snappy, with a tendency to cry at the least provocation?

If so, your nerves are in a shattered condition, and you are threatened with nervous preservation.

It so, your nerves are in a snattered condition, and you are threatened with nervous prostration.

Undoubtedly you do not know it, but in nine cases out of ten this is
caused by some uterine disorder, and the nerves centering in and about the
organs which make you a woman influence your entire nervous system.
Something must be done at once to restore their natural condition or
you will be prostrated for weeks and months perhaps, and suffer untold
misery.

Proof is monumental that nothing in the world is better for this purpose than Lydia E. Pinkham's Vegetable Compound; thousands and thousands of women have written us so. How Mrs. Holland, of Philadelphia, suffered among the finest physicians in the country, none of whom could help her—finally cured by Lydia E.

Pinkham's Vegetable Compound.

"Dear Mrs. Pinkham:— For over two years I was a constant sufferer from extreme nervousness, indigestion, and dizziness. Menstruction
was irregular, had backache and a feeling of great lassitude and weakness. I was so bad that I was not able to do my own work or go far in
the street. I could not sleep nights.

"I tried several splendid doctors, but they gave me no relief. After
taking Lydia E. Pinkham's Vegetable Compound I soon began to
feel better, and was able to go out and not feel as if I would fall at
every step. I continued to take the medicine until cured.

"I cannot say enough in behalf of Lydia E. Pinkham's medicine,
and heartily recommend all suffering women to try it and find the
relief I did."—Mrs. Florence Holland, 622 S. Clifton St., Philadelphia, Pa. (Jan. 6, 1902.)

Another case of severe female trouble cured by Lydia F. Pinkham's Vegetable Compound, after the

doctors had failed. "Dear Mrs. Pinkhan:—I was in poor health for several years.

I had female trouble and was not able to do my housework alone. I felt tired, very nervous, and could not sleep. I doctored with several doctors. They doctored me for my stomach, but did not relieve me. I read in your book about your medicine, and thought I would try it. I did so, and am now cured and able to do my work alone, and feel good. I was always very poor, but now weigh one hundred and fifty nounds.

"I thank you for the relief I have obtained, and I hope that every woman troubled with female weakness will give Lydia E. Pinkham's Vegetable Compound a trial. I have recommended it to many of my friends."—Mrs. Maria Bowers, Millersville, Ohio. (Aug. 15, 1901.)

Will not the volumes of letters from women made strong by Lydia E. Pinkham's Vegetable Compound convince all of the virtues of this medicine? How shall the fact that it will help them be made plain? Surely you cannot wish to remain weak, and sick, and discouraged, exhausted with each day's work. You have some derangement of the feminine organism, and Lydia E. Pinkham's Vegetable Compand will help you just as surely as it has others.

Undergraduates Must Work. Undergraduates Must Work.

BERKELEY, Dec. 17.—In an effort to raise the standard of scholarship and to make room for the brighter students, the University of California has passed a rule making it necessary for the undergraduates to pass in at least eight hours of new Work each term. Heretofore the requirement has been but five hours, a standard which was set two years ago. Last year 214 out of 2076 students were dropped from the rolls, and it is believed in the new order of things the percentage of failures will be much higher.

Widow and Seven Children Dependent on His Earnings.

TERMINAL ISLAND, Dec. 17 .- P. L. Garvin, an aged section boss with a wife and seven children dependent upon him, was decapitated by a train on the Salt Lake road here this morn-ing.

wife and seven children dependent upon him, was decapitated by a train on the Sait Lake road here this morning.

The wheels of two freight cars passed over his neck, severing the head from the body as quickly and surely as would the death-dealing French guillotine. The shocking tragedy was purely accidental and the crew in charge of the train are exonerated from blame.

Garvin was about 60 years of age, and had been in the employ of the Sait Lake Railroad Company for a number of years as section foreman. Yesterday he had been looking after the company's bath-house at the upper end of the island, after which he started for home. Seeing the switching train going his way he decided to ride down. The cars were moving slowly and the old man got aboard and climbed to the top of one of the box cars without difficulty.

While standing at one end, the train suddenly gave a forward jerk, precipitating Garvin down onto the rails between the cars. Before the crew discovered that he had failen off, two cars had passed over his neck. The head was completely severed from the trunk and rolled several feet away from the track. Death had evidently been instantaneous, the wheels catching the unfortunate man's throat the instant he touched the ground.

Deceased lived in a frame house located near the Crescent Lumber Company's wharves, East San Pedro. There a widow and seven children mourn the shocking removal of husband and father, whose earnings, were almost the sole support of the family. The inquest will be lessued January I, 1803.

SANTA MONICA.

TRUSTEES NOT IN UNISON.
SANTA MONICA, Dec. I7.—At the meeting of the Board of Trustees Monday evening the Finance Committee reported a number of demands, including one for \$112, in favor of E. W. Boehme, the City Treasurer, for insurance on the new City Hall, Dudley strenuously objected to the demand, and after considerable haggling the demand was withdrawn and insurance ordered canceled for the present.

On inquiry by Dudley as to why the demand was withdrawn and insurance ordered canceled for the presented, the Finance Committee stated that Goetz had been requested to sign an agreement in conformity with a report of the Building Committee when he was granted sixty days additional time in which to complete the structure. The report was adopted November 24 and requires the contractor to furnish the town with the necessary hall and offices, should be fall to turn the building over at the expiration of the sixty days. This great department of ours, occupying 7500 square feet of space, is replete with everything possible to be desired in fancy articles for presentation purposes. No matter what the recipient's taste or sex it is easy to make selections among these articles displayed in this bazaar, and prices range to suit the most economical or the most plethoric purse. Most of the articles are practical, while sentiment attaches to others, but a combination of the two strikes a happy medium. But every, thing prosey is just as well to be forgotten when the world is merry and look only to giving pleasure at Christmas time.
